

Entrepreneurship Development Cell (EDC)

The Entrepreneurship Development Cell (EDC) within the Electronics and Communication Engineering Department is a dynamic hub dedicated to fostering innovation, nurturing entrepreneurial spirit, and facilitating the transformation of ideas into impactful ventures. With a keen focus on bridging the gap between academia and industry, the EDC serves as a catalyst for fostering a vibrant ecosystem of entrepreneurship within the department.

Our mission is to empower budding entrepreneurs, equip them with essential skills, and provide them with the necessary resources to turn their entrepreneurial dreams into reality.

Key Activities:

- Entrepreneurial Workshops and Seminars
- Hackathons and Ideation Competitions
- Industry Collaborations
- Networking Events

Major Equipments:

- 3D printers
- Soldering and desoldering stations
- LOAR communication module
- Embedded prototyping development boards
- IoT Training setup
- VR Headset and Accessories

The Entrepreneurship Development Cell in the Electronics and Communication Engineering Department serves as a beacon of entrepreneurship, guiding and inspiring students to explore their entrepreneurial potential and embark on a journey of innovation and enterprise. Through its diverse range of activities and initiatives, the EDC continues to nurture the next generation of visionary entrepreneurs who will shape the future of technology and industry.
